What's included in the box

The Weldmax portable fume extractor is only 20kg and is a perfect solution and companion for mobile fume extraction.

Onsite welding applications represent new standards in portable welding and fume extractors with the capacity to deal with fumes up to medium MIG, TIG, and MMA welding applications. Also ideal as a solder fume extractor due to the compact design of the extraction nozzle. Manufactured in Europe with CE, EAC and ERP2-15 certification, this unit is a robust design despite being lightweight. A perfect combination for mobile or small workshops.

- Weldmax Portable Fume Extractor 240V
- Extraction nozzles and magnetic support
- Owner's manual
- 3 year warranty
- Lifetime product support

weldmax

is all about high quality and lean manufacturing which is now a premium name in the welding industry – and you can be guaranteed that we care the most.

With the recent inverter additions and enhancements to the product line up, Weldmax now has products suited to a wide field of uses starting from welding in the garage to heavy boiler making and structural steel, stainless manufacturing, aluminium fabrication & boat building.
